You 	12 mins	<ol style="list-style-type: none"> Class discussion: Why do you think reading is good for wellbeing? (prompts in the slide) Then choose either Activity A or Activity B (or you can do both!): <p>Activity A: Reading time!</p> <ul style="list-style-type: none"> Ask the class to go get their favourite book (or a comic, magazine etc) Give them 5-10 minutes of quiet reading time. If possible, do this in the school library or a quiet reading area. Dim the lights slightly and invite the children to get comfortable. At the end of the session, invite children to share a little about what they have been reading. Importantly – ask each child to talk about they feel after reading. Can they compare it to how they felt beforehand? Do they notice a difference in their heart rate or mood? Are they excited or calmed by what they have read? No writing necessary, the joy in this activity is the discussion of why reading is such a wonderful pastime! <p>Activity B: Reading Posters</p> <ul style="list-style-type: none"> Using ideas from the class discussion, invite children to create posters that encourage reading as a wellbeing activity. <ul style="list-style-type: none"> See PPT slides for ideas. This can be done on paper or using ICT. You can also share reading posters from The Story Project, available alongside this resource. Put the posters up around school and in your classroom.
